PROFESSIONAL SUMMARY

Full-stack developer building production SaaS applications and data-heavy dashboards with React, Next.js, TypeScript, and NestJS. Led a frontend refactor that cut initial JavaScript by 74%. Created StackForge CLI, downloaded 4,000+ times in three months.

PROFESSIONAL EXPERIENCE

Full Stack Developer | EVEAD GROUP, Casablanca Mar 2026 - Oct 2026

- Led a two-person frontend team to refactor a production Next.js analytics platform, reducing first-load JavaScript from 1.67 MB to 439 kB.
- Rebuilt reusable UI and chart components, consolidated three frontend apps into a monorepo, and integrated Turbopack.

Full Stack Developer | Freelance, Remote (part-time) Jan 2025 - Present

- Delivered a responsive landing page and product catalog for Maghreb Grillage, a paid client, using Next.js and TypeScript. | maghrebgrillage.vercel.app

Software Engineer Intern | 1337 / 42 Network, Khouribga Oct 2025 - Feb 2026

- Built two separate admin dashboards for OCP and HSE so teams could review, import, update, and export records from a web interface. Used Next.js, Tailwind CSS, NestJS, PostgreSQL, and TypeORM, and wrote a Python script to parse Excel files.

Mobile Frontend Developer | Automotive insurance startup, France (remote) Jun 2025 - Oct 2025

- Built the mobile frontend with React Native, Redux, and NativeWind, and developed the backend with Express.js and PostgreSQL.

Mobile Frontend Developer | OutdoorPal, US (freelance) Mar 2025 - Jun 2025

- Built eight React Native screens for an outdoor activity app, spanning login through the in-app store.

TECHNICAL SKILLS

Core stack: TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL
Frontend & mobile: React Native, Redux, NativeWind, Tailwind CSS, shadcn/ui
Additional technologies: Python, FastAPI, Express.js, Fastify, Redis, ClickHouse, Prisma, TypeORM
DevOps: Docker, Docker Compose, Git, GitHub Actions, CI/CD, Nginx, Linux, Turbopack, monorepos
Product delivery: REST APIs, JWT, WebSockets, Figma, design systems, Shopify

SELECTED PROJECTS

StackForge CLI | stack-forge.aitaouss.me/docs

- Open-source CLI with 4,000+ downloads in three months. Scaffolds Next.js and NestJS apps with Prisma, JWT, Docker, and a monorepo setup in 10 seconds or less.

Profita | profita.aitaouss.me

- Built an e-commerce SaaS used by two clients to track profitability per order across sales, costs, ad spend, and returns. Supports Moroccan workflows including MAD, VAT, ICE, and cash on delivery.

EDUCATION

1337 School | 42 Network, Khouribga 2023 - 2025

Common Core completed in 2025. Project-based training in algorithms, systems programming, networking, and web development.

Specialized Technician | Graphic Design & Visual Communication, OFPPT ISTA AG 2021 - 2023

Graphic design, visual identity, UI/UX, Photoshop, Illustrator, InDesign, and After Effects.
