PROFESSIONAL SUMMARY

Full Stack Developer with nearly 2 years of web development experience, specializing in TypeScript, React, Next.js, and NestJS. Leads frontend delivery from UI/UX through production deployment, with experience in SaaS analytics, backend APIs, and mobile interfaces. Creator of StackForge CLI, with 4,000+ downloads over 3 months.

PROFESSIONAL EXPERIENCE

Full Stack Developer | EVEAD GROUP — Casablanca Mar 2026 – Present
- Led the platform-wide frontend refactor alongside a junior developer, rebuilding reusable components from scratch.
- Created a monorepo for 3 frontend applications and integrated Turbopack, improving build speed and page responsiveness.
- Rebuilt pie, line, map, Sankey, and word-cloud charts, cards, and an image gallery with calculated layouts; fixed broken components.
- Collaborate with the backend team on API development and integration using NestJS.

Full Stack Developer | Freelance (part-time) — Remote Jan 2025 – Present
- Build and deploy web applications, SaaS products, business websites, and Shopify e-commerce stores.
- Deliver UI/UX design, frontend interfaces, backend APIs, and database integration using Next.js, NestJS, Express.js, Fastify, PostgreSQL, SQLite, and ClickHouse.

Software Engineer Intern | 1337 / 42 Network — Khouribga Oct 2025 – Feb 2026
- Built an industrial analytics dashboard for OCP SBU Manufacturing with metric calculations, data management, and an admin interface.
- Developed OCP HSE analytics dashboards with KPI management, metric calculations, and an admin interface using Next.js, NestJS, PostgreSQL, Docker, and Figma.

Mobile Frontend Developer | Automotive insurance startup — France, Remote Jun 2025 – Oct 2025
- Built React Native interfaces for an automobile insurance application, translating Figma designs into reusable components.

Mobile Frontend Developer | OutdoorPal — US, Freelance Mar 2025 – Jun 2025
- Developed React Native mobile screens and frontend features from UI/UX mockups.

TECHNICAL SKILLS

Frontend & Mobile: JavaScript, TypeScript, React, Next.js, React Native, Tailwind CSS, shadcn/ui, HTML, CSS
Backend: Node.js, NestJS, Express.js, Fastify, REST APIs, JSON Web Tokens (JWT), WebSockets
Databases, Caching & ORM: PostgreSQL, MySQL, SQLite, ClickHouse, Redis; Prisma, TypeORM (Object-Relational Mapping)
DevOps: Docker, Docker Compose, Git, GitHub Actions, Continuous Integration/Continuous Delivery (CI/CD), Nginx, Linux, Turbopack, Monorepos
UI/UX & Design: Figma, Responsive Design, Design Systems, Photoshop, Illustrator
E-commerce: Shopify, Shopify Theme Customization

SELECTED PROJECTS

StackForge CLI — Full Stack Scaffolding | stack-forge.aitaouss.me/docs
- Built an open-source command-line interface (CLI) with 4,000+ downloads over 3 months; generates Next.js/NestJS project scaffolds in 10 seconds or less with Prisma, JWT, Docker, and monorepo setup.

Profita — E-commerce Profitability SaaS | profita.aitaouss.me
- Built a workspace connecting sales, product costs, advertising, fulfillment, returns, and inventory to calculate profit per order; supports MAD, VAT, ICE details, cash on delivery, and WhatsApp.

Maghreb Grillage — Corporate Website | maghrebgrillage.vercel.app/
- Built a responsive business website using Next.js, TypeScript, Tailwind CSS, and shadcn/ui.

ft_transcendence — Full Stack Web Application
- Developed a web application with APIs and interactive interfaces using Next.js, Fastify, SQLite, and Tailwind CSS.

EDUCATION

1337 Program — 42 Network | Khouribga | 2023 – 2025
Completed Common Core in late 2025; project-based training in algorithms, systems programming, networking, and web development.
Specialized Technician — Graphic Design & Visual Communication | OFPPT ISTA AG | 2021 – 2023
Graphic design, visual identity, UI/UX, and Adobe tools: Photoshop, Illustrator, InDesign, After Effects.

LANGUAGES

Arabic: Native | French: Professional working proficiency | English: Professional working proficiency

ACHIEVEMENTS

2nd Place — 48-Hour Hackathon, 1337 School | Team award in a 48-hour coding challenge.
